Dear Ms. Orr,

Phil Smith of Montgomery Watson has requested that I write this letter to you regarding the Interceptor Wells #3 and #4 at the North Main Street Well Field, Elkhart, Indiana. At this time, all construction projects have been completed. However, the City has not received any final plans or Operation & Maintenance manuals or warranty information, which I understand we will receive after you accept the project as complete.

The City will not officially sign off and accept the project as complete until the punchlist items have been addressed. The punchlist items include; but, are not limited to: Operation and Maintenance manuals, test results from various phases of the project, warranty information, spare parts and inventory list, and "as-built" drawings.

If this letter does not suffice to satisfy your requirements, please contact me at (219) 293-2572.

Sincerely,

Marie A. Davis
Superintendent
